

FALL 2022 - NANOBIONYC PHD LEADERSHIP WORKSHOP SERIES

CITATION MANAGER WORKSHOP - LEARN TO CITE LIKE A PRO

FRIDAY NOVEMBER 18TH, 2022, 3-4PM
VIRTUAL VIA ZOOM

Do you know how to write papers with references embedded? How about sharing your 'citation libraries' with collaborators?

Learn from GC's science librarian Mason Brown - set it up properly now using Zotero and save yourself hours of tedious editing!

How to prepare for the workshop:

1. Register for the virtual workshop: link [here](#)
2. Create an account and download **Zotero**

Bonus: download **Chrome connector** and Word Processor **Plugins**

After attending the workshop:

Start writing your reports with references using the correct **journal style** of the scientific journal.

This event is co-organized with **CREST IDEALS**, a program for multidisciplinary team of researchers to design materials with functionalities that culminate from the control of the unique properties of surfaces, interfaces and defects in self-assembled nanomaterials.

The series is open to all CUNY students in STEM graduate programs (PhD and Master's). The workshops and their resources are free. RSVP is required.
